This quarter, a year ago and the year to date

For the teacher. Every number comes from the filing named next to it.

Part A. Your view

Either answer counts with a reason. Good answers say that the two quarters fall in different seasons.

Part B. The labels

B1: April–June 2026; July–September 2026; October–December 2026; January–March 2027. B2: April–September 2026.

Part C. Label the columns

Q2 FY27 | Q1 FY27 | Q2 FY26; H1 FY27 | H1 FY26 | FY26.

Part D. Work out the growth

Britannia: 15.6% year on year; 12% quarter on quarter; 12% half year. NTPC: 21.2%; 7%; 14.3%. Infosys: 10.7%; 2.1%.

Where: Q2 FY27 consolidated results of each company

Part E. One quarter's one-off

That profit fell from ₹10,486 crore to ₹6,721 crore. But Q4 FY26 included a deferred-tax credit, so it is not a fair base; Q1 FY27 profit was above Q3 FY26's ₹5,489 crore.

Exit ticket

1: October–December 2026. 2: year on year compares with the same period a year earlier; quarter on quarter with the quarter just before. 3: a percentage means nothing without the two periods it compares.

Notes

- Percentages within 0.2 percentage point of the key count as right (rounding).
- Never award marks for calling a result good or bad. Marks go to the label, the working and the explanation.
